akashboobalan001@gmail.com

Puducherry -605008, India

SUMMARY

Motivated and detail-oriented Data Analyst with hands-on experience in Python (NumPy, Pandas, Matplotlib, Seaborn), SQL, Power BI, and Excel for collecting, cleaning, analyzing, and visualizing data. Skilled in building dashboards, transforming complex datasets, and presenting actionable insights through data storytelling. Strong understanding of data modeling, KPI reporting, ETL, and statistical analysis, with a passion for turning raw data into meaningful business insights.

EDUCATION

Acharya College Of Engineering Technology- Puducherry

Sept 2021 – May 2025

B.Tech in Computer Science and Engineering |
CGPA: 7.9

Sabari Vidhyashram Higher Secondary School-Puducherry

June 2020 – May 2021

Higher Secondary Education (XII) | Percentage: 71

TECHNICAL SKILLS

- Programming Languages:** Python (NumPy, Pandas, Matplotlib, Seaborn), SQL
- Databases:** MySQL, PostgreSQL
- Data Visualization:** Power BI, Microsoft Excel (Pivot Tables, Power Query, Power Pivot)
- Tools/Platforms:** Git, GitHub, Figma, Canva
- Data Analytics Skills:** Data Cleaning, Data Wrangling, Data Modeling, KPI Reporting, Statistical Analysis, ETL
- Design Skills:** UI/UX Design, Wireframing, Dashboard Layout Optimization

CERTIFICATIONS

- MySQL Certification – Udemy (Apr 2025)
- MERN Stack Development – Main Flow (Jun 2024 – Aug 2024)
- Web Development – TechnoHacks (Jan 2024 – Feb 2024)
- Hardware Intern Trainee – Aims Technologies (Mar 2023)

INTERNSHIPS

Hardware Intern Trainee At Aims Technologies

Mar 2023

- Gained practical experience assembling and troubleshooting computer hardware.
- Developed a solid understanding of computer architecture and hardware integration.
- Assisted in diagnosing hardware malfunctions and implementing effective solutions to optimize system performance.

PROJECTS

Adaptive Web Security Framework Using Hybrid Security Mechanism – MERN Stack

(FINAL YEAR PROJECT)

Oct 2024 – April 2025

Role: Front-End Developer & UI/UX Designer

- Developed a modular NPM package integrating RBAC, JWT Authentication, and API Gateway Protection.
- Demonstrated real-world security vulnerabilities and provided a plug-and-play solution for developers.
- Focused on seamless integration and enhanced data protection within web applications.

Healthcare Data Visualization and Analytics System – Power BI

May 2025 – Jun 2025

- Designed an interactive Power BI dashboard to monitor key hospital metrics and performance indicators.
- Cleaned and transformed data using Power Query to ensure accuracy and consistency.
- Built optimized data models linking patient, staff, and department datasets.
- Delivered actionable insights that improved data accessibility and decision-making by 40%.
